Ashes of the Red Heifer

By Stephen M. Yulish Ph.D.

According to an article in The Mid-East Dispatch, issue 237, the 16th of March 1997, the birth of a red heifer in Israel is being hailed by religious Jews as a sign from God that work can soon begin on building the Third temple in Jerusalem.

The report stated that a team of Rabbinical experts confirmed that the animal, born six months ago on a religious kibbutz, Kfar Hassidim, near the northern Israeli port of Haifa, meets the Biblical criteria for the red heifer needed for purification of those who wish to rebuild the temple.

As stated in the fourth book of the Torah, Numbers Chapter 19, an unblemished red heifer in which there is no defect and on which a yoke has never been placed, is to be slaughtered and burned and its ashes made into a liquid paste used in the ceremony for purification from sin.

Since Herod's Temple was destroyed by the Roman emperor Titus in AD 70 no flawless red heifer has been born within the Biblical land of Israel according to Rabbinical sources. Besides, the Jewish people did not see the re-creation of the State of Israel until 1948, nor the recapturing of Jerusalem until 1967.

The birth of the animal to a black and white mother and a dun colored bull is being hailed as a miracle by Jewish activists who want to rebuild the temple and prepare the way for the Jewish Messiah's entry into Jerusalem. "We have been waiting for 2000 years for a sign from God", one of them said. "and now he has provided us with a red heifer."

Christians also view the rebuilding of the Temple as an important sign of the return of the Messiah. In Matthew 24:2, Jesus accurately predicted that Herod's Temple would be destroyed. When He was asked by His Disciples what would be the sign of His return and the end of the age, Jesus responded that when you see the abomination of desolation which was spoken of by the prophet Daniel standing in the Holy place (Temple). This could not take place in Herod's Temple because it would be destroyed and it was (in 70 A.D.). One cannot have a desolation of

Sanhedrin Launched In Tiberias
12:19 Jan 20, 05 / 10 Shevat 5765

A unique ceremony - probably only the 2nd of its kind in the past 1,600 years - took place in Tiberias today: The launching of a Sanhedrin, the highest Jewish-legal tribunal in the Land of Israel.

A unique ceremony - probably only the second of its kind in the past 1,600 years - is taking place in Tiberias today: The launching of a Sanhedrin, the highest Jewish-legal tribunal in the Land of Israel.

The Sanhedrin, a religious assembly that convened in one of the Holy Temple chambers in Jerusalem, comprised 71 sages and existed during the Tannaitic period, from several decades before the Common Era until roughly 425 C.E. Details of today's ceremony are still sketchy, but the organizers' announced their intention to convene 71 rabbis who have received special rabbinic ordination as specified by Meimonesides.

There is now new and exciting DNA evidence for common Jewish origin -- not just among Cohanim, the Priestly Class, but among Jews scattered all over the globe.

Recently published research in the field of molecular genetics -- the study of DNA sequences -- indicates that Jewish populations of the various Diaspora communities have retained their genetic identity throughout the exile. Despite large geographic distances

The image displays two architectural diagrams of Solomon's Temple. The top diagram is a cross-section showing the temple's profile. It features a central 'Holy Place' (Greater House) with a height of 35 cubits. To its left is the 'Holy of Holies' with a height of 30 cubits. To the right is the 'Vestibule' with a height of 18 cubits. The entire structure sits on a base of 60 cubits (27 m). A 'Brazen Sea' is shown to the right, with a diameter of 10 cubits and a height of 5 cubits. The bottom diagram is a floor plan of the temple, showing a central 'Holy Place' (Greater House) and a 'Vestibule' on the right. The overall width is 20 cubits (9 m). A circular decorative element is shown to the right of the vestibule.
